**FELT BOBS**

**SHANK  $\phi 2.34, \phi 3.0$**

5 pcs./pack Cotton Bobs

3 pcs./pack

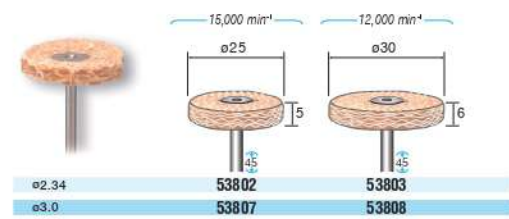

5 pcs./pack Dark Brown Cotton Bobs

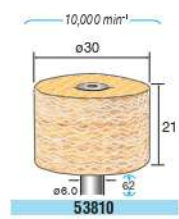

For metal semi-finishing. Using polishing materials.

**SHANK  $\phi 2.34, \phi 3.0$**

5 pcs./pack Sisal Bobs

3 pcs./pack

**SHANK  $\phi 3.0$**

7 pcs./pack Polishing Piled Bobs Assorted Set

2 pcs./pack Polishing Compound (Solid Type)

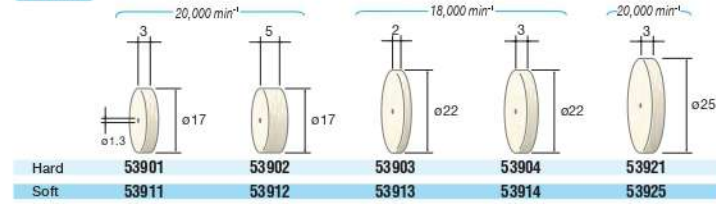

For Metals	Applications	Code	Applications
Alumina for metal pre-finishing (white rouge)	Aluminum, stainless steel, brass, chrome, etc.	55341	Aluminum, stainless steel, brass, chrome, etc.
Tripol for metal pre-finishing (red rouge)	Iron, aluminum, etc.	55342	Iron, aluminum, etc.
Chrome oxide for metal finishing (blue rouge)	Precious metals, aluminum, stainless steel, brass, copper alloys, etc.	55343	Precious metals, aluminum, stainless steel, brass, copper alloys, etc.

For Resins	Applications	Code	Applications
For resin pre-finishing (white rouge)	For synthetic resins and coated surfaces	55345	For synthetic resins and coated surfaces
For resin finishing (white rouge)	For synthetic resins and acrylics for coated surfaces	55346	For synthetic resins and acrylics for coated surfaces

**SHANK  $\phi 1.3$**

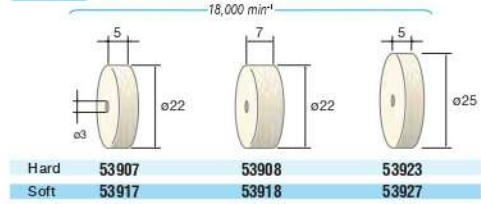

10 pcs./pack

\*Use after attaching to mandrel P.29 (No. 37011, 37012, 37015, 37051). \*Mandrel needs to be purchased separately.

**SHANK  $\phi 3.0$**

10 pcs./pack

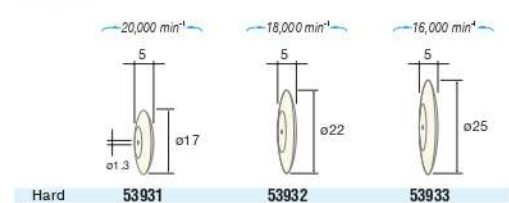

\*Use after attaching to mandrel (No. 37052). \*Mandrel needs to be purchased separately.

3 pcs./pack Mandrels

**SHANK  $\phi 1.3$**

10 pcs./pack Knife Edge Type

\*Use after attaching to mandrel P.29 (No. 37011, 37012, 37015, 37051). \*Mandrel needs to be purchased separately.

**SHANK  $\phi 2.34$**

16 pcs./pack Polishing Piled Bobs Assorted Set

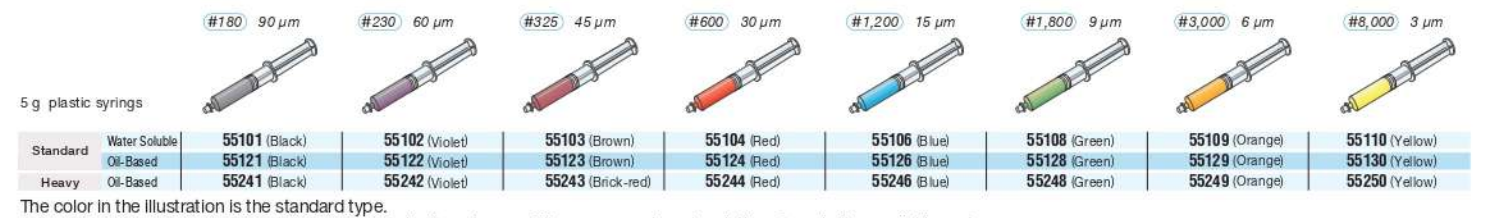

**SHANK  $\phi 3.0$**

16 pcs./pack Polishing Piled Bobs Assorted Set

**ABRASIVE COMPOUNDS & POLISHING TOOLS**

1 pc./pack Diamond Compounds

The color in the illustration is the standard type. \* The micron grades indicate median range of grain diameters. \* We recommend weak solutions for grinding, polishing, etc.

1 pc./pack Diamond Compounds

The color in the illustration is the standard type. \* The micron grades indicate median range of grain diameters. \* We recommend weak solutions for grinding, polishing, etc.

1 pc./pack Diamond Micron Powder

Micron Range $\mu\text{m}$ (Grit)	10 Carats	50 Carats	Micron Range $\mu\text{m}$ (Grit)	10 Carats	50 Carats
80-100 (#200)	55301	55311	6-12 (#1,800)	55306	55316
